Cafeteria doesn’t have enough power outlet
Chairs are too close to polls
Lecture hall doesn’t have enough power outlet for each seats
Light switches are confusing
This computer is dated and nobody is using and consuming power which our tuition has to pay for
Important network devices are connected to the public power outlet
We have to go aaaaaaaall the way around to get to the computer lab
Weird place for the elevator. It should be right be the entrance
While hiding outlet makes the place more pretty, it is extremely inconvenient
Class tables are to narrow that touch screen often mistakes the input
This doesn’t look anything like fire extinguisher. And it is kind of clumsy to open it up.
Had rails are sharp and could hurt somebody.
