CS465 Interview Questions
Matthew Ellermets and Jeffrey Quaco

Goal:
We want to know if our graffiti robot is usable, and we want to know if using it requires technical skills. We intend to make the interface more usable, and make it require a lower level of technical skill to operate.

Prequestions:
What is your impression of robots and what they can do for people?
Have you used a robot before?
Do you consider yourself technically skilled?

Postquestions:
After using the graffiti robot, have your opinions about robots changed?
If so, how?

Please rate the following on a scale from 1 to 5, where 1 is the worst and 5 is the best.

Entertainment ____
Practicality ____
Ease of use ____
Coolness ____
